GONZALO RIVERO BAUD

SOFTWARE ENGINEER

PERSONAL PROFILE

Me: Innovative software engineer with excellent troubleshooting skills - able to analyze code and engineer well-researched, cost-effective and responsive solutions

Date of Born: 01/01/1995 (26 years old)

Nationality: Argentina

Current Location: Cordoba, Cordoba, Argentina

INTEREST AND HOBBIES

I am interested in the study of Artificial Intelligence and machine learning.

I play League of Legends in the competitive scene in LAS and also enjoy playing World of Warcraft.

I like to teach and enjoy movies, books, and music (im learning to play piano).

I speak English and Spanish.

EMPLOYMENT HISTORY

SWISS JUST (2021 - Present)
Backend Developer

- APIs/microservices with the latest open-source. **Python, FastAPI, Django, DjangoRestFramework, SQLAlchemy, Redis, SQL, NoSQL, HTTP, JSON,**
- Deployment and CI/CD with **Docker, Kubernetes, GitLab-ci and pipelines. Using AWS (amazon web services)**

HUENEI IT SERVICES (2021 - Present)
Software Factory

AVATURE SRL (2020)
Software Developer

Developer at Main-Objects team, design and develop new features for every release, bug fixing, and improved product functionality and speed. **Python, SQL, Javascript, PHP.**

ASD STUDIOS (2017 - 2020)
Game Developer at UNC

ASD Studios is a student organization to learn design and produce video games for PC and mobile devices with **Unreal Engine 4, C++** and **Blueprints.**

EDUCATIONAL HISTORY

CS50's edx Harvard University:

- CS50's Artificial Intelligence with Python 2021

Search algorithms, probability theory, bayesian networks, Markov models, first-order logic, modal logic, machine learning, neural networks, Natural language processing (NLP).

- CS50's Introduction to Computer Science 2020

Introduction to computer science, programming, abstraction, algorithms, complexity, data structures, encapsulation, security, software engineering, web programming, and solving problems efficiently.

UNC Universidad Nacional de Cordoba:

- Analista en Computacion, Graduated in 2020.

Heavy focus on **math:** analysis, linear algebra, discrete math, calculus, first-order logic, probability and programming.

TECHNICAL SKILLS

- **Python /** FastAPI, Flask, Django, DRF, TensorFlow, Pandas, Numpy, Keras,m PyTorch. (Heavy focus on Back-end for Machine Learning and Artificial Intelligence)
- **Javascript**, C, C++, C#, PHP
- **Control Version /** GIT, GitLab, GitHub
- **Web development /** HTML, CSS JavaScript, Svelte, REST APIs, React, Angular, Frontend, Backend, Fullstack
- **Functional Programming /** Haskell, Ocaml
- **Game Engines /** Unreal Engine 4, Unity 5
- **Amazon Web Services /** AWS / API Gateway, Lambda, EC2, SQS, SNS, DynamoDB
- **DevOps /** Docker, Kubernetes, CI/CD, gitlab-ci, pipelines.
- **SQL** and **NoSQL**
- **Linux / Windows/ macOS**

Adaptability to learn any programming language or new technology.
